## Instructions for Spring Break Return (Requirements, Date/Time Reminders, Forms)

---

### BEFORE YOU RETURN

- **Required** - COVID19 testing 3 - 5 days prior to your scheduled return date; results must be logged in form below
  - BC completed the Fall semester successfully, because you followed protocols and we quickly identified COVID19 cases through screening, reporting, and testing. Regular COVID19 screenings and testings remain essential tools that help us support the ongoing health and safety needs of our community. To ensure our best chances for a successful Spring semester, we must try to identify any active COVID19 cases before students return to campus.
  - As a requirement for Spring Check-in, **BC is therefore requiring students to take a COVID-19 test within three to five (3 - 5) days prior to their return to campus this Spring.**
  - Your personal test results (whether positive, negative, or inconclusive) must be uploaded through the form at the link below.

**REQUIRED FORM** - LOG YOUR COVID-19 TEST RESULTS: [www.tinyurl.com/C19Results](http://www.tinyurl.com/C19Results)

- **Required** - Resume COVID19 BC Radar screening and self-reporting ([COVID19@brevard.edu](mailto:COVID19@brevard.edu)) 5 days prior to returning
  - Testing does not always capture cases and also will not identify exposure that occurs after the testing date. Therefore, students must resume use of the BC Radar symptoms tracker and self-reporting protocols 5 days prior to returning. This includes emailing [Covid19@brevard.edu](mailto:Covid19@brevard.edu) if you are experiencing symptoms, have received a positive or inconclusive test, or have had possible or known exposure.
- **Required** - Complete Spring enrollment requirements
  - Financial clearance (regarding any Fall balance, Spring billing, etc.)
  - Financial aid obligations (regarding loans, grants, scholarships, etc.)
  - Class registration
  - Campus Life obligations (policy acknowledgements, meal plan selection, etc.)

Campus will double-check to make sure you have completed all of your Spring enrollment requirements at that time. We will also be conducting COVID19 screening measures as part of our check-in processes.

- **On Dates Before Fri, 1/15**

Contact the Faculty or Staff Member overseeing your program for more information about checking in.

## **UPON RETURNING**

- **Follow the 3Ws and Campus COVID19 Policies**

- Thank you for all you have done to keep our campus community safe. The Fall Semester and Winter Break have been very difficult for many members of our campus community. Up to this point, our year has only been as successful as it has been due to your care and support of each other. When we return, we have to continue to be diligent in wearing our masks, remaining physically distanced at least 6 feet, washing our hands, completing screenings, reporting symptoms, participating in testing, and following our general campus COVID19 policies.

- **Anticipate More Information** - Please be on the lookout for more campus announcements regarding COVID19.
