Helicopter captured photo of Bridger-Teton National Forest, where Gabby Petito's remains were found.

## A current timeline of the search for Gabby Petito

By Anna Ervin  
Layout & Design

Human remains have been located in Wyoming that match the description of the missing Gabby Petito, according to the F.B.I. Exactly what has happened to the young woman is unknown, but here is a rundown of everything that has happened so far in this case.

In June of 2021, Petito and her fiancé, Brian Laundrie, embarked on a cross country trip using Petito's white Ford van to visit national parks on the West Coast. She remained in close contact with her family until an abrupt stop at "the end of August," said North Port Police Chief Todd Garrison.

Aug. 12, police stopped Petito and Laundrie and described them as having "engaged in some

sort of altercation." They were said to have had a physical fight after an argument, but both reported to Officer Eric Pratt that they did not want charges and were in love and engaged to be married. They separated for the night, at the officers request.

The last week of Aug. held Petito's final contact with her family. Aug. 24 was Petito's last facetime with her mother, and Aug. 30 her family received the final text from Petito that read, "No service in Yosemite." Her family doubts this was sent from her.

Sept. 1, Laundrie returned to the couple's home that they shared with his parents without Petito. The van used in Petito and Laundrie's travels was found by police at the home and was possessed by authorities.

Sept. 11, Petito's family filed a missing persons report to the Suffolk County New York Police Dept. after not being able to contact her. The police went to talk to Laundrie and his family but were instead handed off to their attorney.

Sept. 17, Laundrie's family told police they have not seen Laundrie since Sept. 14. Local and federal authorities kicked off a search to find his whereabouts. It is important to note that while he is a person of interest for Petito's disappearance, he is not wanted for a crime and is a missing person.

Sept. 19, is when the remains assumed to be Petito were found in Bridger-Teton National Forest. Full forensic identification had not yet

**See 'Found in' on Page 2**

A photo of Gabby Petito.

## *Found in Bridger-Teton National Forest*

**Continued from page 1**

been done, but Petito’s family was notified of this finding. They have requested time from the press to grieve before they release a statement. Sept. 21, the body found was confirmed in

the autopsy results to be that of Gabby Petito. The cause of death is pending the final autopsy results, but the initial determination for the manner of death is homicide, according to the F.B.I.

The Clarion is a student-run college newspaper produced by student journalists enrolled at Brevard College. Unsigned editorials represent the collective opinion of the staff of *The Clarion*. Other opinions expressed in this newspaper are those of respective authors and do not necessarily reflect the opinions of the faculty, staff or administration of Brevard College.

All correspondence should be mailed to: *The Clarion*, Brevard College, One Brevard College Drive, Brevard, NC 28712, or send E-mail to [clarion@brevard.edu](mailto:clarion@brevard.edu) [clarion.brevard.edu](http://clarion.brevard.edu)

✉ **Letters Policy:** The Clarion welcomes letters to the editor. We reserve the right to edit letters for length or content. We do not publish letters whose authorship cannot be verified.

## Security Report

Lately, there have been several instances of students propping and leaving residential hall doors open, which is strictly prohibited. The reports have predominantly been from the Village dorms, though cases of propped doors exist among the rest of the on-campus residence buildings, as well. Students are reminded that they should not be leaving dorm entrances open, as it poses security risks to the students living in the residential halls.

On Monday, the Jones Residential Hall fire alarm went off and students were evacuated. It was reported that some of the students were not following the proper evacuation protocols and were rude and confrontational toward the Brevard Fire Dept. firefighters. Students have to follow the school’s protocols during a fire evacuation and comply when Brevard firefighters are doing their job. Not only does it pose a safety risk, but defiant behavior toward public servants doing their job is completely inappropriate.

Students were also found vaping around the premises of Jones; students are reminded of the designated smoking areas around campus, such as the bench located beside Tornado Alley, and the table by King’s Creek.

Stan Jacobsen, Director of Safety, Security and Risk Management, sent out an email to students, faculty and staff saying the following: “In the past, we have tried to use a spreadsheet on which to list lost and found items. However, many on campus do not utilize it for a variety of reasons. Therefore, in order to ensure nothing falls through the cracks, the new procedure is to send an email directly to me with a description of the lost or found item, which I can then forward as appropriate.”

Students can report lost or found items from now on by emailing Jacobsen at [stan.jacobsen@brevard.edu](mailto:stan.jacobsen@brevard.edu).

# Weekly horoscopes

By Anna Ervin  
Layout & Design

**Aries**, you're feeling very isolated and entrapped within yourself. Look inward and take responsibility. There is a path forward, so stop restricting yourself.

**Taurus**, you're overwhelmed right now, and it may feel like you're hanging on by a thread. Your perception may be skewed by your mental exhaustion. Things are tough, but clear your head and it may not be as bad as it seems.

**Gemini**, this is a low point for you, but when you hit the bottom you can only really go up. Bright things are ahead of you, so don't swarm yourself with the negativity of now.

**Cancer**, you're trying too hard and it's putting everything off. You're out of balance right now. Take a step back and reconsider what you have and whether or not it really is enough for you.

**Leo**, relationships are tough, especially when it comes to communication. Don't let disagreements or stubbornness get in the way of the relationships you do have. Only looking at yourself will lead to self isolation.

**Virgo**, if you've got a specific goal, right now is the time to move forward. Good things are ahead, so put yourself in the way of opportunity.

**Libra**, there is so much to let go of. You're holding on to self destructive habits, boredom, and self doubt. Ignoring matters will not make them go away.

**Scorpio**, don't be completely impulsive about it, but if you've got something you're after, you should go for it. Forethought and strategy are still important here, though.

**Sagittarius**, this is a time of self-awareness. You are intelligent and diligent, so keep moving forward. Don't let your perfectionism get in the way of what you're doing.

**Capricorn**, you've achieved some level of growth and healing, and it's really starting to show. You may still be holding onto negativity, so if you let that go, you'll be even better for it.

**Aquarius**, beware of your ambition causing you to reach for too much. New adventures can lead to big things, but it takes patience to get there.

**Pisces**, your problems are your own making, but lack of perspective is not letting you see that. Take a step back, and try a new outlook. You got yourself in the situation, and you have the skills to get yourself out.

An illustration of the woolly mammoth.

## Mammoth reincarnation project

A startup company called Colossal has received enough funding to “resurrect” the woolly mammoth. Their goal isn't to exactly clone a mammoth, but to make an elephant-mammoth hybrid. According to CNN, the group of scientists working for this company want to use gene editing technology to bring back several long extinct species.

They plan to use endangered Asian elephant DNA due to its similarities to mammoth DNA. Proponents to this cause believe that this hybrid species could help bring balance to the very fragile ecosystem in the arctic tundra. They also believe that doing this could help to save Asian elephant populations by preserving them in this new hybrid species.

An exact clone of the mammoth is impossible due to extracted DNA being too fragmented

and degraded despite it being frozen. Which makes a hybrid species much more feasible. The team plans to make the species visually almost identical to mammoths.

By using gene editing technology, they plan to combine the fragmented mammoth DNA and the elephant DNA. And will then place it into an artificial uterus for an almost two year gestation period, according to the Smithsonian. However, members of Colossal have stated they are not opposed to using live elephants as surrogates.

The co-founder of Colossal, Ben Lamm, recently stated, “Our goal is to have our first calves in the next four to six years.” His co-founder, George Church, is the Robert Winthrop professor of genetics at Harvard medical school.

## Senior profile

# Psych major, Emmaline Grennan to graduate

By Caroline Hoy  
Layout & Design

Emmaline Grennan is a senior psychology major at Brevard College. Grennan is from Davidson, N.C., which is slightly north of Charlotte.

Grennan said she chose Brevard College because, “The campus reminded me a lot of New England. I love the temperatures and the downtown area.” Although, she is not a fan of the big hill.

Since coming to Brevard College, Grennan has joined Canterbury Club with St. Phillips, and during her junior year she was the media and design editor for the Chiaroscuro, the Brevard College literary magazine. For an assignment for Chiaroscuro, Grennan submitted her poetry to Polaris, a national literary magazine. They accepted her work and she will be published when the next issue comes out.

Like many seniors, Grennan is very excited to graduate. When asked about after college, Grennan said, “I plan to go to graduate school after this, and pursue a career as a counselor or psychiatrist... Growing up, I had to gain an understanding of why my family looked and acted differently than most. Learning about mental illness and mental health has been really important in helping those around me, as well as myself.”

Grennan finds mental health a very important topic. Many of her writing pieces focus on her struggles and her overcoming them. For example, her poem that will be in Polaris, Ginger Ale.

“I have always been interested in psychology. I think my aspirations have changed to something that has affected me in a more personal manner. I used to be really interested in criminal rehabilitation, and now it has branched out to focus on the illnesses that can cause someone to become a criminal.”

According to Grennan, she is probably most known for dying her whole head pink or shaving almost all of her hair off. She is also known for writing and art skills.

Grennan is always wanting to help her friends and help others. She takes her school very seriously, but always sets aside some

time for an adventure or two. Grennan will miss her friends she has made at college, but

is excited to start the next chapter of her ongoing story.

## Staff profile

# Nacole Potts promoting student success

By Caroline Hoy  
Layout & Design

Nacole Potts is the Associate Dean for Students for Career Development. In this position, Potts helps students figure out what they want to do after their time at Brevard College.

Potts is originally from Columbia, KY, where she also went to Lindsay Weston College. She received her bachelor's degree in 2005, and her master's in career services, in 2010.

While living in Brevard, Potts met her husband, a Brevard College alum who is currently working as a fly fishing tour guide. Together they have two little girls, ages five and eight. She calls them her "little spitfires."

Before Potts came to Brevard, she had visited

the area once. She came on a camping trip and fell in love with the area. Potts took a job in housing in 2006, less than a month after her trip.

Not too long after Potts started working at Brevard College, a position in career services opened up. Career services is what Potts focused on in college, thus she applied for it. Potts has been in career services ever since.

Potts has a range of duties under her umbrella. Her position incorporates job fairs, work study, studying abroad, helping students choose and validate major and minors, plan for graduate school, professional clothing closet, resume building, job searching and helping students become career ready.

Potts sees students of all years. She always says, "It's never too early to start." In an interview, Potts said that most students come to her for help with resumes and job searching, followed by help finding a major, "I love helping students." Potts' door is almost always open for students to walk in and ask for help.

Potts' office is located in Tornado Alley, so whether someone needs help finding a professional attire, or applying for a master's degree, Nacole Potts is ready with her vast knowledge of the career world.

# O'Leary named to National Team of the Week after first TD grab of career

By Joseph Marvin  
Digital Media Director and Assistant SID

BREVARD, N.C. - Following the first touchdown catch of his Tornado career - a 31-yard score that helped the Brevard College football team roll past NC Wesleyan 32-7 last Saturday - senior tight end Jaden O'Leary has been named to D3football.com's Team of the Week.

The selection marks BC's first weekly honoree on the national level for the Fall 2021 season. Fellow Tornado Joc Pledger

was selected as a Preseason All-American by D3football.com.

O'Leary, a native of Fayetteville, North Carolina, enjoyed a career performance on Saturday with career-high totals in receptions (three), yards (44), and touchdowns (one) to aid the Tornado offense in their conference-opening victory over NC Wesleyan.

BC football is back in action on Saturday in a 1 p.m. kickoff at Ives-Lemel Family Field, taking on Huntingdon College. The contest

serves as BC's Faculty & Staff Appreciation game.

To follow the latest news and updates surrounding Brevard College Athletics, follow the Tornados on Twitter/Instagram @BCTornados, subscribe to 'Brevard College Tornados' on YouTube and SoundCloud, and follow 'Brevard College Tornado Athletics' on Facebook. In addition, follow 'brevardcollege' on Flickr for photos from BC events.

# Spencer breaks program records as Tornadoes down Wasps on Sunday

By Joseph Marvin

Digital Media Director and Assistant SID

EMORY, Va. - Senior forward Adam Spencer scored the 13th goal and 31st point of his Tornado career, breaking the Brevard College men's soccer career NCAA era mark for career goals and points, as BC (4-1-1) defeated Emory & Henry College (1-4) by a 2-1 final score on Sunday afternoon.

Spencer, a native of Mooresville, North Carolina, put his record-breaking score in the back of the net in the 64th minute, breaking a scoreless tie for the two sides as Estevan Berto tallied an assist on the strike. Ryan Sinkamba continued his solid form with his second goal in as many games on a Trystan Wallace assist.

Thiago Leopardi (2-0-1) recorded his second victory of the season to remain unbeaten, logging 90 minutes in goal with a save. Emory & Henry keeper Spencer Scott racked up 10 saves to keep the Wasps within striking distance.

Brevard dominated the shooting and possession throughout the contest, outshooting the Wasps 26-7 including a 14-2 margin in the first half. BC won all nine corner kicks in the match as well.

The first half saw Brevard rack up 14 shots and force eight Wasp saves, as both teams remained scoreless through intermission.

Spencer's record-breaking goal came in the 64th minute as the senior intercepted a pass deep in EHC's half of the field and played it to Berto, who gave it right back to Spencer before he ripped a shot into the left corner of the net.

BC was able to double their advantage in the 83rd minute when Wallace was played through by Ryan Lynch on the left side of the box. Wallace settled as support came, and whipped in a cross that found Sinkamba on the top right side of the box. The sophomore from Lusaka, Zambia ripped it into the right side of the net to give the Tornadoes a 2-0 advantage.

Sinkamba's goal proved the game-winner, as EHC got on the board with three minutes left to play to cut BC's lead to a one-goal margin, 2-1. The Wasps ripped another shot with two minutes left that went out left, as Brevard held on for their fourth victory of Fall 2021.

BC's three-match road swing concludes on Wednesday, September 22 when the Tornadoes travel to Greensboro, North Carolina to take on Greensboro College at 7 p.m.

To follow the latest news and updates
